

Energy Surcharges (GB-Ire/NI routes)

Fuel Surcharge

All shipments between GB and IRE/NI are subject to a Low Sulphur Surcharge (LSS). LSS is adjusted monthly, based on the average index price of 0.5% sulphur and the £/\$ exchange rate (Bank of England). Costs in LSS may rise or fall, leading to monthly variable charges per metre.

LSS for October 2024 will be £1.92 / €2.27 per metre.

LSS calculations and GBP/Euro exchange rate (Bank of England) are averaged for the period, 16.08.24 – 15.09.24. LSS will be charged per metre and applied equally to all GB-Ire/NI routes.

CO2 Surcharge

Shipments on routes in and out of Ireland are subject to an Emissions Trading Scheme (ETS) and CO2 surcharge. The CO2 surcharge is adjusted monthly. The price for October is based on a CO2 price of EUR 68.4 (Average EEX EUA End of Day Index price in EUR/tonne) for the period 16.8.24 -15.09.24. ETS is adjusted during the EU phase-in period (-60% in 2024) and for routes to/from the UK (a further -50%).

CO2 SURCHARGE FOR OCTOBER 2024 AS FOLLOWS:

Routes	GBP / EUR per metre
Dublin-Liverpool-Dublin	0.37 / 0.44
Dublin-Heysham-Dublin	0.37 / 0.44
Warrenpoint-Heysham-Warrenpoint	0.00 / 0.00
